Experience

Senior Visual Designer • *Beyond* 2023 - current

Tech company that builds digital experiences and AI solutions.

- Lead UI and visual design across digital products, including responsive websites, campaign experiences and applications.
- Design scalable design systems, reusable components and templates across digital projects.
- Create motion graphics, animations and microinteractions using After Effects and interactive prototypes.
- Bring digital experiences from design to production in Webflow, building responsive layouts with custom interactions and animations.
- Collaborate with UX, development, production and strategy teams throughout the design and delivery process.
- Lead client presentations, showcase design decisions and maintain clear communication around project progress, feedback and deliverables.

Lead Visual Designer • *Binmatter Studio* 2017 - 2022

Studio that develops apps and videogames.

- Led UI design for web applications and CMS platforms, creating digital tools that supported clients' internal business operations.
- Created motion graphics, video content and multimedia for client and internal projects.
- Developed the visual identity and digital assets for the company's annual game development festival, supporting event promotion across multiple channels.
- Designed HUD and interface elements for video games, collaborating with the development team throughout testing and implementation.

Freelance Web Designer • *DES Solutions* 2018 - 2023

Software development company.

- Designed responsive websites for various clients, helping them have an online presence with clear and straightforward solutions.

Lead Visual Designer • *El Diario de Juárez* 2015 - 2017

Local newspaper in Juárez, Mexico.

- Created informative microsites to inform the public about special events, festivals and local projects. Resulted in increased website visits as reported in 2017.
- Led the visual redesign of the newspaper's website in collaboration with the webmaster.
- Provided design graphics during live coverage of important events such as local elections and important circumstances.
- Presented design work to leadership and collaborated with stakeholders throughout the approval process.

Graphic Designer • *E-Consulting* 2013 - 2015

Design agency specialized in web development.

- Developed website wireframe and mockups.
- Communicated directly with clients regarding any questions or changes to the design layout.
